

**CHARGER BOARD, POWERWISE™, E-Z-GO
P/N 9012**

P/N 9012 Control Board replaces both of the original charger circuit boards (P/N 28566-G01 and P/N 28566-G03) in the PowerWise™ battery charger. Follow the instructions below to install this new board:

1. Remove both old circuit boards.
2. Mount P/N 9012 Control Board in location where original power input board (P/N 28566-G01) was mounted, with the RED and BLACK wires positioned closest to the capacitor.
3. Refer to the drawing below for correct wiring connections.
